An operative report is probably one of the most common documents used in the medical world. An operative report is a patient's medical record

File Type PDF

Operative

Report by a

surgeon

containing the
important

details of the
surgery. It

basically lists
down the

findings,

procedure used,

preoperative and

postoperative

diagnosis and

the name of the

performing the
surgery. When
writing an

operative

report, you will

be required to

follow the

standard report

format.

In order for
medical
professionals to
know a patient's
progress or
medical status,
creating medical
reports are what
they need. A
medical report

File Type PDF

Operative

is an updated
detail of a
medical
examination of a
certain patient.
It is a vital
written document
that describes
the findings of
an individual or
group of people.
